Hello,

It has been brought to my attention that the tree in front of 437 West 6th Street is almost completely blocking our front building signage (see attached). Potential tenants are citing this as extremely undesirable for business. At your earliest convenience please have PBID tree trimmers out to the location. Additionally, I would recommend trimming the tree in front of the Warner Grand as it is hiding the beauty of the theater from passing vehicles on Pacific Ave.

Thank you
-Jacob Eisenberg
